

PATTLE DELAMORE PARTNERS LTD

## Senior Hydrogeologist - Auckland

- ∴ Leading Role
- ∴ Strong Hydrogeology Team
- ∴ Varied and Interesting Projects

Pattle Delamore Partners Limited (PDP) is an environmental consultancy providing engineering, scientific and planning services. We are dedicated to finding environmental solutions that work for both our clients and the environment. At PDP you will be working with high calibre people at all levels and professionals who are leaders in their field.

An opportunity is available in our Auckland office for a Senior Hydrogeologist to take a leading role in our groundwater team. The role has a strong client focus that involves managing relationships, delivering solutions for client projects and managing staff resources to meet client expectations. The successful candidate will have well developed technical skills in hydrogeology with an ability to think and function independently.

This is an opportunity to play a leading role within a multidisciplinary team of industry leading hydrogeologists, geologists, groundwater and surface water engineers. You will be given the opportunity to continue to develop your career and work on a varied range of interesting projects for private and public sector clients.

For further details and a job description, please go to our website [www.pdp.co.nz](http://www.pdp.co.nz)
