

PAT TLE DELAMORE PART NERS LTD

## Asbestos Specialist

### Auckland

PDP is a New Zealand, employee owned environmental consultancy with 140 staff nationwide. We provide engineering, scientific and planning services to a wide range of clients.

We are looking for someone with two plus years' experience to join our busy Contaminated Land Group as an Asbestos Specialist. The role is largely focussed on asbestos and methamphetamine in buildings and/or soils.

#### The Role Includes

- ✦ Asbestos building surveys, air monitoring, clearance inspections and issuing clearance certificates.
- ✦ Methamphetamine screening and detailed assessments.
- ✦ Preparation of survey and assessment reports.
- ✦ Project management, contract administration and budget tracking.
- ✦ Contractor monitoring.
- ✦ Undertaking soil, groundwater, surface water/sediment and gas sampling.
- ✦ Undertake XRF testing of soils for heavy metals and building products for lead paint.

#### You Will Have

- ✦ Asbestos survey/assessor consultancy experience and IP402 qualification.
- ✦ Methamphetamine screening assessment experience and working knowledge of NZS8510.
- ✦ Tertiary qualification in science preferred.

#### We offer

- ✦ A great opportunity to advance your career in a growing company
- ✦ Internal and external training
- ✦ A strong focus on health and wellness
- ✦ A supportive team of people to work with
- ✦ A great location, with 5 minutes' walk to trains, buses, carparks and a large mall.
- ✦ A culture of work/life balance
- ✦ Competitive remuneration
- ✦ A highly reputable and well established brand
- ✦ An enthusiastic, supportive team and an active social environment

## **Asbestos Specialist (Auckland)**

### **Job Description**

This role is for an Asbestos Specialist working within our Contaminated Land group. The role involves professional work focussed on asbestos and methamphetamine in buildings and/or soils. The ideal candidate will have existing qualifications and experience in asbestos surveying and management, with methamphetamine assessment and XRF testing an advantage. This is an opportunity for a highly motivated candidate to work with a professional team of scientists and engineers within NZ's most respected specialist environmental consultancy for a range of high profile clients.

### **Duties**

The role includes the following duties:

- ✧ Undertaking asbestos building surveys, air monitoring, clearance inspections and issuing clearance certificates.
- ✧ Undertaking methamphetamine screening and detailed assessments.
- ✧ Preparation of survey and assessment reports.
- ✧ Project management, contract administration and budget tracking.
- ✧ Contractor monitoring.
- ✧ Undertaking soil, groundwater, surface water/sediment and gas sampling.
- ✧ Undertake XRF testing of soils for heavy metals and building products for lead paint.
- ✧ Working with senior Scientists and Engineers on all of the above.

### **Technical Skills**

Training and/or experience in the following areas:

- ✧ Asbestos building surveys, asbestos assessor roles and asbestos air monitoring.
- ✧ Methamphetamine screening and detailed assessments.
- ✧ Data analysis.
- ✧ Report writing.
- ✧ Contractor management.

### **Personal Qualities**

- ✧ Good interpersonal skills
- ✧ Ability to work on several projects at a time
- ✧ Ability to work to deadlines
- ✧ Self-starter
- ✧ Professional approach to work

### **Qualifications and Experience**

- ✧ Asbestos survey/assessor consultancy experience and IP402 qualification.
- ✧ Methamphetamine screening assessment experience and working knowledge of NZS8510.
- ✧ 2 plus years' experience.
- ✧ Tertiary qualification in science preferred.
