

PATTLE DELAMORE PARTNERS LTD

## Senior Civil/Environmental Design Engineers – Three Waters

### Auckland

- ✧ Opportunity to make a significant jump in your career
- ✧ Interesting and varied environmental projects with major Corporates
- ✧ Great team environment in a consulting company that has been operating for over 30 years

Pattle Delamore Partners Ltd (PDP) is a New Zealand, employee owned, environmental consultancy with over 130 staff providing engineering, scientific and planning services. We are dedicated to finding environmental solutions that work for both our clients and the environment. At PDP you will be working with high calibre people at all levels and professionals who are leaders in their field.

#### The Opportunity

Based in the Auckland office, this would suit a Senior Civil Engineer who has gained wide experience with Three Waters who is looking to continue in a generalist role.

In this role, you will be working in the established Auckland Water Infrastructure team on a range of high-end projects through the whole project lifecycle. This will include tenders, construction contracts, design for treatment plants pipelines and municipal water/wastewater through to site supervision and investigations.

Working across a range of wastewater projects, you will have the opportunity to manage projects right through from investigations and concept development into detailed design, construction and commissioning.

This is an excellent opportunity for the right person and offers rapid career development.

#### About You

Ideally, you will have the following skills and experience:

- ✧ A Bachelor of Engineering in Civil, Natural Resources or Environmental Engineering;
- ✧ Hold at least 10 years post graduate experience in either water supply, wastewater and/or stormwater;
- ✧ Chartered Engineer registration;
- ✧ Ability to technically lead investigations, feasibility studies and detailed designs, prepare contract documents and manage contracts;
- ✧ Experience of designing water infrastructure such as Detention Tanks, Pumping Stations and Pipeworks, etc;

- ✦ Knowledge in the design and delivery of three waters infrastructure;
- ✦ Proven ability to work to deadlines;
- ✦ Great communication skills, both written and verbal, and
- ✦ Quality and detail focussed.

### **We Offer**

- ✦ The support and responsibility you need to rapidly develop your skills and experience through involvement in a range of interesting projects with high calibre people;
- ✦ Encouragement and financial support to attend courses and conferences to further your career;
- ✦ The opportunity to become a shareholder in the company in the future;
- ✦ The support you need, if necessary, to achieve professional recognition as we are an Engineering New Zealand Professional Development Partner;
- ✦ Work flexibility if required;
- ✦ Ability to relocate to another office;
- ✦ Paid parental leave in addition to statutory requirements;
- ✦ An active social club, and
- ✦ A modern office located in the centre of a major shopping precinct and close to major transport links.

To apply, please email [employment@pdp.co.nz](mailto:employment@pdp.co.nz) and include the following:

- ✦ Your CV
- ✦ A covering letter
