

PATTLE DELAMORE PARTNERS LTD

Lead Role in Geotechnics - Wellington

- Key relationship driver with staff and clients
- High performance, growing company
- An enthusiastic, supportive and fun culture

A fantastic opportunity to utilise your skills to develop a Geotechnical presence for PDP in Wellington and the Lower North Island.

PDP is a New Zealand, employee owned, environmental consultancy, providing engineering, scientific and planning services to a wide range of clients. We have 180 staff across six offices nationwide, nine of whom are in the Geotechnics Group.

The Role

This is a new role in our Wellington office.

You will primarily be taking a lead role in developing PDP's Geotechnics Group in providing engineering geology/geotechnical engineering services projects such as foundations, slope stability, dams, service corridors and quarrying. The target market is the lower North Island, working out of PDP's Wellington office.

You will be supported in this role by all members of the Group, across all offices.

The role includes:

- Developing engineering geology/geotechnical engineering opportunities with existing and new clients
- Undertaking geotechnical projects
- Managing projects with the PDP team including liaising with regulators and client contacts
- Planning, writing and reviewing technical reports and, as appropriate, input into engineering design
- Supervision of contracts and construction works
- Providing support for engineering geological/geotechnical projects being carried out in other PDP offices.
- Liaise with other PDP workgroups, particularly contaminated land and groundwater.
- Take a proactive approach to client relationship management and ongoing liaison with regulators and other relevant bodies
- Ensure quality, safety and risk management processes are implemented
- Ensure profitability through effective and timely management of workflows and billing

You

- Will be a Geotechnical Engineer or an Engineering Geologist with responsibility at a senior level and a track record in the New Zealand market, especially the lower North Island
- Will have commercial and business development skills, and strong written and spoken communication skills.

- Will have a wide range of geotechnical experience, preferably in a consultancy or with a local authority
- Ability to build a team and mentor and develop staff

We Offer

- High calibre people at all levels
- Professional development opportunities
- A new, modern office in the CBD
- An opportunity to become a shareholder in the future
- Competitive remuneration
- An active social environment
- A friendly, collaborative culture
- Flexibility that encourages work/life balance.

To apply, please click on 'Apply For This Job' and include:

- Your CV
- A covering letter

Applicants must be New Zealand Citizens or be residing in New Zealand with a work visa.
