

## Intermediate Engineer – 3 Waters | Auckland

Join an established and highly respected environmental and engineering consultancy with a nationwide presence. With almost 100 water professionals, we have one of the most capable three-waters teams in New Zealand. Driven by solving the important infrastructure and environmental challenges facing NZ, we are still growing and invite you to be part of our future. You will be working in a business that prides itself on our people-focused culture, our fun workplace, and our creative thinking and sound advice.

We are looking for an Intermediate Engineer with experience in water, wastewater and stormwater (three-waters) who will be given opportunity to work across a wide variety of projects and further develop their skills and leadership expertise.

### The Role

- Investigation, planning and design of water, wastewater and stormwater infrastructure.
- Contract management including cost estimating, tender and contract preparation, construction monitoring and commissioning.
- Instruction to the CAD / BIM / 3-D modelling team on projects.
- Project management.
- Work with a range of clients from local authorities to private companies.
- Work across all stages of a project, taking a high level of responsibility but under the coaching and support of our senior engineers.
- Supervision and support to junior engineers.

### You will need

- Degree in Civil, Environmental or Natural Resources Engineering
- Minimum 5 years' experience in three-waters engineering investigation, design and contract management.
- Chartered Professional Engineer (CPEng) qualified (or equivalent) or well-progressed towards qualification.
- Strong verbal and written communication skills.
- Excellent organisational skills.
- Creative thinking to find innovative and sound solutions for our clients.
- A collegiate, team-player attitude.
