

Senior Environmental Scientist | Wellington

Join an established and highly respected environmental and engineering consultancy with a nationwide presence. Driven by solving the important infrastructure and environmental challenges facing NZ, we are still growing and invite you to be part of our future. You will be working in a business that prides itself on our people-focused culture, our fun workplace, and our creative thinking and sound advice.

We are looking for an enthusiastic and solution focused Senior Environmental Scientist with a strong track record of delivering contaminated land projects. You will provide technical and project management input into a wide range of projects and further develop your skills and expertise in finding solutions to environmental issues. This is a great opportunity to advance your career with a growing company.

The Role

- A client facing role with a strong business development component – sourcing work from existing clients and developing new clients.
- Manage contaminated land projects (soil, ground gas, ground water, surface water) by scoping, budgeting, supervising and co-ordinating all resources and liaising with regulators and client contacts. Ensure health and safety focus so nobody gets harmed.
- Provide data analysis, conceptual model development and assessment of media testing results.
- Conduct due diligence and environmental site audits.
- Prepare and review technical reports and resource consent applications; prepare or contribute to proposals and tenders.

You Will Need

- Degree in Geology/Engineering Geology/Environmental Science from a well-recognised University (Masters preferred); working towards or having CEnvP (SC) would be an advantage.
- Minimum of 8 years' post graduate experience contaminated land experience that includes one or more areas of hazardous waste, hydrogeology, surface water quality, air quality, environmental management.
- Familiarity with the Contaminated Land Guidelines and Regulatory Framework.
- Strong verbal and written communication skills and excellent organisational skills.
- Creative thinking to find innovative and sound solutions for our clients.
- A collegial, team-player with a 'can do' attitude.

About Us

PDP is a leading environmental and engineering consultancy offering solutions for environmental issues through our specialised range of services. Working on a wide variety of projects ranging from major infrastructure projects through to investigations on the natural environment, we aim to cover the entire range of environmental services required by our clients, in air, land and water.

We are a NZ, employee owned and operated company, with 35 years' experience in providing environmental solutions throughout New Zealand, Australia and in the Pacific Islands. Our team of over 180 specialists are located in Auckland, Hamilton, Tauranga, Wellington, Christchurch and Invercargill.

With a strong focus on health and wellness, as well as an enthusiastic and active social club, PDP offers a fun work environment with a focus on work/life balance. Along with a supportive team of professionals to work with, you will have the opportunity to advance your career in a growing NZ-owned company.
