

## Service Leader - Water Resources | Hamilton

Join an established and highly respected environmental and engineering consultancy with a nationwide presence. Driven by solving the important infrastructure and environmental challenges facing NZ, we are still growing and invite you to be part of our future. You will be working in a business that prides itself on our people-focused culture, our fun workplace, and our creative thinking and sound advice.

The role is responsible for the delivery and continued expansion of PDP's water resources services in our Hamilton office. This role is within the Environmental Management group and enables the incumbent to apply their knowledge to a range of water resource investigations. As a water resource service leader in the Hamilton office, the role will also involve assistance in the mentoring of junior team members.

### The Role

- Business development by sourcing ongoing work from existing clients, developing new clients, and raising the person's personal, as well as, the company's profile by the presentation of papers at conferences.
- Manage water resource projects by co-ordinating staff and subcontractors, liaising with regulators client contacts and stakeholders, controlling budgets and invoicing.
- Prepare environmental management plans, monitoring plans and consent applications
- Technical report writing and presenting expert evidence at hearings
- Apply company policies in health and safety, quality, administration, and technical procedures

### You will need

- Masters or post graduate degree in environmental science or engineering is preferred.
- At least seven years' experience in a consulting, local authority environment or research organisation.
- A reputation as a recognised contributor to the water resource services market and want to further develop personal skills.
- Have proven commercial and business development skills, and strong written and spoken communication skills.
- A broad-based scientific background with good practical experience
- Good technical report writing, data analysis and management skills

### About Us

PDP is a leading environmental and engineering consultancy offering solutions for environmental issues through our specialised range of services. Working on a wide variety of projects ranging from major infrastructure projects through to investigations on the natural environment, we aim to cover the entire range of environmental services required by our clients, in air, land and water.

We are a NZ, employee owned and operated company, with 35 years' experience in providing environmental solutions throughout New Zealand, Australia and in the Pacific Islands. Our team of over 180 specialists are located in Auckland, Hamilton, Tauranga, Wellington, Christchurch and Invercargill.

With a strong focus on health and wellness, as well as an enthusiastic and active social club, we are committed to providing a fun work environment with a strong culture of work/life balance. Along with a supportive team of dedicated professionals to work with, you will have the opportunity to advance your career in a growing company who provide a competitive remuneration.
