

Senior Environmental Scientist - Contaminated Land | Tauranga/Hamilton

Join an established and highly respected environmental and engineering consultancy with a nationwide presence. Driven by solving the important infrastructure and environmental challenges facing NZ, we are still growing and invite you to be part of our future. You will be working in a business that prides itself on our people-focused culture, our fun workplace, and our creative thinking and sound advice.

We are looking for an enthusiastic and solution focused Senior Environmental Scientist with a strong track record of delivering on contaminated land projects. You will provide technical and project management input into a wide range of projects and further develop your skills and expertise in finding solutions to environmental issues. This is a great opportunity to advance your career with a growing company.

The Role

- Complete Preliminary Site Investigations; sites commonly investigated include petroleum facilities, commercial/industrial/residential land, asbestos contaminated land and landfills.
- Undertake Detailed Site Investigations including the preparation of health and safety documentation and obtaining environmental samples (e.g. of soil, water, sediment and asbestos)
- Analyse results, assess environmental data, and develop conceptual site models.
- Manage projects by co-ordinating subcontractors, liaising with regulators and client contacts, and preparing cost estimates and be able to write technical reports and contribute to proposals.
- The role is based in our Tauranga office. However, we would consider a suitable Waikato based candidate with the ability to travel to Tauranga and also spend time in our Hamilton office when required.

You Will Need

- Degree in Geology/Engineering Geology/Environmental Science
- Minimum 5 years' contaminated land experience.
- Familiarity with the Contaminated Land Guidelines and Regulatory Framework.
- Strong verbal and written communication skills and excellent organisational skills.
- Creative thinking to find innovative and sound solutions for our clients.
- A collegial, team-player with a 'can do' attitude.

About Us

PDP is a leading environmental and engineering consultancy offering solutions for environmental issues through our specialised range of services. Working on a wide variety of projects ranging from major infrastructure projects through to investigations on the natural environment, we aim to cover the entire range of environmental services required by our clients, in air, land and water.

We are a NZ, employee owned and operated company, with 35 years' experience in providing environmental solutions throughout New Zealand, Australia and in the Pacific Islands. Our team of over 190 specialists are located in Auckland, Hamilton, Tauranga, Wellington, Christchurch and Invercargill.

PDP has a strong culture of work/life balance, focus on wellness and health and safety. We offer competitive remuneration and a great range of benefits including medical insurance and income protection. Along with a supportive team of dedicated professionals to work with, you will have the opportunity to advance your career in a growing company that provides itself on being the best in class.
