

Hydrogeologist – Groundwater | Auckland

This is a great opportunity for a junior professional to join an established and highly respected environmental and engineering consultancy with a nationwide presence. Driven by solving the important infrastructure and environmental challenges facing NZ, we are still growing and invite you to be part of our future. You will be working in a business that prides itself on our people-focused culture, our fun workplace, and our creative thinking and sound advice.

This is an excellent opportunity for someone at graduate level or with up to two years' experience, to join our Auckland based groundwater team. You will work within a multidisciplinary team of industry leading hydrogeologists, geologists, groundwater and surface water engineers. This team provides services to both its own external clients as well as specialist input to projects across all PDP workgroups.

The Role

- Assist with field investigations including the supervision of drilling; field permeability tests (slug tests); pumping tests; stream flow gauging, groundwater quality sampling and level monitoring.
- Process and interpret field data.
- Analyse data using advanced computer software and spreadsheet programmes.
- Prepare hydrogeological cross sections.
- Assist senior professionals with groundwater conceptual modelling and data preparation for groundwater numerical modelling.
- Prepare technical reports and correspond with suppliers, contractors and clients.

You will need

- Degree in geoscience, water resources management, environmental science, environmental engineering or equivalent with a focus on hydrogeology, geology, geomorphology or hydrochemistry.
- Whilst we do not require minimum experience, prior experience (e.g. via an internship or in a graduate role) in field investigations or interpretation of geological and/or environmental information would be an advantage.
- Strong verbal and written communication skills.
- Excellent organisational skills.
- Creative thinking to find innovative and sound solutions for our clients.

About Us

PDP is a leading environmental and engineering consultancy offering solutions for environmental issues through our specialised range of services. Working on a wide variety of projects ranging from major infrastructure projects through to investigations on the natural environment, we aim to cover the entire range of environmental services required by our clients, in air, land and water.

We are a NZ, employee owned and operated company, with 35 years' experience in providing environmental solutions throughout New Zealand, Australia and in the Pacific Islands. Our team of over 200 specialists are located in Auckland, Hamilton, Tauranga, Wellington, Christchurch and Invercargill.

PDP has a strong culture of work/life balance, focus on wellness and health and safety. We offer competitive remuneration and a great range of benefits including medical insurance and income protection. Along with a supportive team of dedicated professionals to work with, you will have the opportunity to advance your career in a growing company that provides itself on being the best in class.
