

Intermediate/Senior Hydrogeologist | Auckland

Join an established and highly respected environmental and engineering consultancy with a nationwide presence. Driven by solving the important infrastructure and environmental challenges facing NZ, we are still growing and invite you to be part of our future. You will be working in the largest Groundwater team in NZ. Our business prides itself on our people-focused culture, our fun workplace, and our creative thinking and sound advice.

This is an opportunity to contribute at an intermediate/senior role and work with the industry leading hydrogeologists, geologists, groundwater and surface water engineers. You will be given the opportunity to continue to develop your career and work on a varied range of interesting projects for private and public sector clients.

The Role

- Strong hydrogeological conceptualisation skills e.g. conceptual model development, groundwater flow/head contouring, source-pathway-receptor understanding, surface water – groundwater interaction
- Strong hydrogeological technical assessment, analytical, and water balance skills. 2D and 3D numerical modelling skills and experience highly regarded (SEEPW, MODFLOW, FEFLOW, etc).
- Competency on GIS, excel, databasing, GoldSim, Leapfrog, and other industry related software highly regarded.
- Conduct fieldwork (business travel might be required).
- Write technical reports and contribute to proposals.

You will need

- Geo-science or Engineering Bachelor's degree, and ideally a post-Graduate degree or master's degree, from a well-recognised university in a geoscience-related field – preferably with a specialisation/focus in Hydrogeology.
- 4 - 8-years plus of post-graduate experience, ideally including at least 4-years of experience in an engineering consulting environment
- Strong verbal and written communication skills and excellent organisational skills.
- Creative thinking to find innovative and sound solutions for our clients.
- A collegial, team-player with a 'can do' attitude.

About Us

PDP is a leading environmental and engineering consultancy offering solutions for environmental issues through our specialised range of services. Working on a wide variety of projects ranging from major infrastructure projects through to investigations on the natural environment, we aim to cover the entire range of environmental services required by our clients, in air, land and water.

We are a NZ, employee owned and operated company, with 35 years' experience in providing environmental solutions throughout New Zealand, Australia and in the Pacific Islands. Our team of over 200 specialists are located in Auckland, Hamilton, Tauranga, Wellington, Christchurch and Invercargill.

PDP has a strong culture of work/life balance, focus on wellness and health and safety. We offer competitive remuneration and a great range of benefits including medical insurance and income protection. Along with a supportive team of dedicated professionals to work with, you will have the opportunity to advance your career in a growing company that provides itself on being the best in class.
