

Graduate Engineer – Water Infrastructure | Auckland/Tauranga/Christchurch

Join an established and highly respected environmental and engineering consultancy with a nationwide presence. With almost 100 water professionals, we have one of the most capable three-waters teams in New Zealand. Driven by solving the important infrastructure and environmental challenges facing NZ, we are still growing and invite you to be part of our future. You will be working in a business that prides itself on our people-focused culture, our fun workplace, and our creative thinking and sound advice.

We are looking for a 4th year (or completed) graduate with a degree in Civil, Environmental, Chemical or Natural Resources Engineering looking to kick off their career in our awesome firm. You will be working across a variety of projects mentored by the best in class - leading engineers the NZ industry. You will become part of our Foundation for Success graduate program and continue your development as a technical pro and a leader.

The Role

- Design, build and manage a broad range of water supply, stormwater, groundwater, wastewater and network infrastructure projects.
- Solve water management issues for industrial and commercial clients.
- Work across diverse opportunities within the water infrastructure team and other technical experts from our work groups (Geotech, Contaminated land etc)
- Manage construction contracts including tender preparation, contractor evaluation, budget management, invoice reconciliation and works certification.
- Provide technical input and develop solutions to a wide range of environmental projects.

You will need

- To have completed (or to be completing the 4th year of) Degree in Civil, Environmental, Chemical or Natural Resources Engineering.
- Great people skills and an appetite to learn new things.
- A can-do, team-player attitude.

Please include a cover letter explaining your career interest in this role and preferred locations, CV and your **academic transcript** with your application.

About Us

PDP is a leading environmental and engineering consultancy offering solutions for environmental issues through our specialised range of services.
