

## Geotechnical Engineer/Engineering Geologist – Geotechnics | Nelson

This is a great opportunity for a junior professional to join an established and highly respected environmental and engineering consultancy with a nationwide presence. Driven by solving the important infrastructure and environmental challenges facing NZ, we are still growing and invite you to be part of our future. You will be working in a business that prides itself on our people-focused culture, our fun workplace, and our creative thinking and sound advice.

We are looking for a driven junior geotechnical engineer/engineering geologist to provide input into a wide range of projects and further develop their skills and expertise in finding solutions to geotechnical issues. This is a fantastic opportunity to start or advance your career.

### The Role

- Plan and carry out site investigations for projects such as slope instability, pipelines, landfills and building foundations.
- Conduct engineering geological model development, slope stability modelling and liquefaction assessments.
- Carry out remedial works design, construction supervision and monitoring systems.
- Write technical reports.
- Support projects by co-ordinating subcontractors and liaising with regulators and client contacts.
- Service external clients directly or provide specialist input to projects across other PDP workgroups and regions in the areas of slope instability, pipeline route selection/construction, foundations/dams/landfill, as well as wastewater reticulation, stormwater disposal and landfills.

### You will need

- Degree in Engineering Geology or Engineering with geotechnical specialisation.
- Whilst we do not require minimum experience, prior experience (e.g. via an internship or in a graduate role) in geotechnical investigations would be an advantage.
- Strong verbal and written communication skills and excellent organisational skills.
- Creative thinking to find innovative and sound solutions for our clients.
- A collegial, team-player with a 'can do' attitude.

### About Us

PDP is a leading environmental and engineering consultancy offering solutions for environmental issues through our specialised range of services. Working on a wide variety of projects ranging from major infrastructure projects through to investigations on the natural environment, we aim to cover the entire range of environmental services required by our clients, in air, land and water.

We are a NZ, employee owned and operated company, with 35 years' experience in providing environmental solutions throughout New Zealand, Australia and in the Pacific Islands. Our team of over 200 specialists are located in Auckland, Hamilton, Tauranga, Wellington, Christchurch and Invercargill.

PDP has a strong culture of work/life balance, focus on wellness and health and safety. We offer competitive remuneration and a great range of benefits including medical insurance and income protection. Along with a supportive team of dedicated professionals to work with, you will have the opportunity to advance your career in a growing company that provides itself on being the best in class.
