

Hydrogeologist / Water Resources Scientist | Tauranga

This is a great opportunity for a professional to join an established and highly respected environmental and engineering consultancy with a nationwide presence. Driven by solving the important infrastructure and environmental challenges facing NZ, we are still growing and invite you to be part of our future. You will be working in a business that prides itself on our people-focused culture, our fun workplace, and our creative thinking and sound advice.

We are looking for someone with up to 4 years' experience to join our Tauranga based Water Resources team. You will join a vibrant, multidisciplinary office including hydrogeologists, hydrologists, engineering geologists, environmental scientists, environmental engineers, and planners. You will enjoy working as part of a New Zealand wide team of industry leading groundwater and surface water specialists.

The Role

- Assist with field investigations including drilling supervision; field testing (permeability, soakage, infiltration); pumping tests; stream flow gauging, water quality sampling and water level monitoring.
- Process and interpret field data.
- Analyse data using advanced computer software and spreadsheet programmes.
- Assist senior professionals with interpretation and conceptualisation of water resource systems.
- Undertake technical reviews of resource consent applications.
- Prepare technical reports and interact with suppliers, contractors and clients.

You will need

- A degree in geoscience, water resources management, environmental science, environmental engineering (or equivalent) with a focus on hydrogeology, hydrology, geology or hydrochemistry.
- While we do not require prior experience, experience in a related field (including internships or graduate roles) would be an advantage.
- Strong verbal and written communication skills.
- Excellent organisational skills.
- Creative thinking to find innovative and sound solutions for our clients.
- A collegiate, team-player attitude.

About Us

PDP is a leading environmental and engineering consultancy offering solutions for environmental issues through our specialised range of services. Working on a wide variety of projects ranging from major infrastructure projects through to investigations on the natural environment, we aim to cover the entire range of environmental services required by our clients, in air, land and water.

We are a NZ, employee owned and operated company, with 35 years' experience in providing environmental solutions throughout New Zealand, Australia and in the Pacific Islands. Our team of over 200 specialists are located in Auckland, Hamilton, Tauranga, Wellington, Christchurch and Invercargill.

PDP has a strong culture of work/life balance, focus on wellness and health and safety. We offer competitive remuneration and a great range of benefits including medical and income protection insurance. Along with a supportive team of dedicated professionals to work with, you will have the opportunity to advance your career in a growing company that provides itself on being the best in class.
