

## Manager of Health, Safety, Quality and Environment (HSQE) | Auckland

This is a fantastic opportunity for a senior Health & Safety, Quality Assurance and Environmental Management professional to join an established and highly respected environmental and engineering consultancy with a nationwide presence. With almost 220 professionals across New Zealand, our engineers and scientists cover the entire range of environmental services in air, land and water. This is a brand-new critical and visible role for our growing business, and we invite you to be part of our future and work in a business that prides itself on our people-focused culture and our fun workplace.

Reporting to the Chief Executive Officer you will provide strategic leadership and team management and contribute as a key member of the senior leadership team on all matters relating to Health and Safety, Quality Management and Environmental Management. You will lead HSQE operations in a manner that supports the strategic intent of the business and key stakeholders, ensuring compliance with legislation, business policies and procedures, and ensuring emergency / crisis preparedness.

### The Role

- Develop and continuously improve management systems across all aspects of HSQE;
- Ensure compliance across all applicable legislation; assess and manage risk across all areas of HSQE;
- Provide thought leadership in the safety culture at PDP;
- Develop and implement crisis management framework from a HSQE perspective;
- Lead, guide and motivate the H&S team for high performance;
- Work collaboratively with other senior leaders as part of our “one team” culture;
- Have influence over the direction of the business and have the potential for shareholding.

### You will need

- Degree qualified with a relevant qualification in occupational health and safety from a well-recognised tertiary education provider;
- Minimum 15 years of relevant experience in a QHSE leadership role;
- Strong working knowledge in HSQE management systems such as ISO certification in Occupational Health and Safety (ISO 45001), Environmental (ISO 14001) and Quality (ISO 9001);
- Prior experience in a professional consultancy will be an advantage;
- Proven leadership skills; a collegiate, team-player attitude;
- Strong verbal and written communication skills.

### About Us

PDP is a leading environmental and engineering consultancy offering solutions to environmental issues through our specialised range of services. Working on a wide variety of projects ranging from major infrastructure projects through to investigations of the natural environment, we aim to cover the entire range of environmental services in air, land and water.

We are a NZ, employee owned and operated company, with over 36 years' experience in providing environmental solutions throughout New Zealand, Australia and in the Pacific Islands. Our team of almost 220 specialists are located in Auckland, Hamilton, Tauranga, Wellington, Nelson, Christchurch, Alexandra and Invercargill.

With lots of benefits, competitive remuneration, a strong focus on wellbeing, a number of ongoing social, community and diversity focused initiatives, we have a strong people-focused culture. We work hard and we make it fun! You will work alongside the best in class - a supportive team of experienced, passionate and dedicated professionals. If you would like to be part of our great growing business and advance your career – apply now.
